Professional Summary

I am a motivated Industrial Informatics Technician entering the field with a focus on stability and long-term career growth. I aim to apply my technical expertise and precision to support company objectives. With a practical mindset and an intermediate command of English, I am seeking my first significant professional challenge in a modern industrial environment.

Professional Experience

Hankook Tire Hungary Ltd. – Intern / Operations Associate

Gained in-depth knowledge of manufacturing processes within a modern industrial setting.

Executed tasks with high precision in strict accordance with technological instructions.

Collaborated effectively with the production team to achieve efficiency targets.

Education
